

## SALT POOLS

# THE PERFECT FAMILY OASIS

### ENERGY-SAVING FEATURES

Fitted with off-peak pumps and solar heating, this energy-saving pool provides a great space for the clients' family to relax and enjoy quality time together.

Constructed and designed by Salt Pools, the concrete pool measures 9m x 3m to ensure every member of the clients' family can enjoy it simultaneously. The outdoor space was levelled to allow its beauty to be admired from within the home.

White ceramic tiles feature on the interior of the pool for a bright and welcoming appeal. Bluestone paving connects the outdoor space to the home and complements the soothing water feature.

Primarily operating in the eastern suburbs of Melbourne, Salt Pools provides its customer-orientated services throughout Victoria. Founded by Richard Workman, Salt Pools has extensive experience developing concrete in-ground swimming pools, plunge pools, infinity pools and spas, and more.

Workman brings more than 30 years of experience in the industry to Salt Pools, which thrives on his expertise and the combined skill of the team. Specialising in a range of pool types, the company creates 20–30 pools every year within Victoria.

Salt Pools offers the whole package, from design concepts to pool construction, as well as landscaping. The company builds immaculate pools and creates landscapes that meet each client's specific requests, and has the expertise to perfect every outdoor space it undertakes.
