

## SALT POOLS

# MEDITERRANEAN REFLECTION

### A GREECE-INSPIRED RETREAT

This pool was inspired by the Greek heritage of the clients. By using materials and colours that are associated with Greek outdoor design, Salt Pools has created a perfect likeness of the Mediterranean style.

Working with the clients' renovation plans for their home, Salt Pools incorporated their proposed extensions to the construction of the pool and landscaping. The Mediterranean theme is achieved with pale travertine paving and the use of vivid-blue glass tiles inside the pool. Surrounded by frameless glass fencing, the beauty of the area can be admired from within the home.

The pool measures 10m x 4m, while the adjoining spa spans 2.5m x 1.5m, offering the perfect amount of space for recreation and relaxation. The use of off-peak pumps and solar heating makes this enjoyable space economical and environmentally friendly.

Primarily operating in the eastern suburbs of Melbourne, Salt Pools provides its customer-orientated services throughout Victoria. Founder Richard Workman brings a total of 28 years of experience in the industry to the company, which thrives on his expertise and the combined skill of the team.

Specialising in a range of pool types, Salt Pools has extensive experience developing concrete in-ground swimming pools, plunge pools, infinity pools and spas, among many others.

Salt Pools creates approximately 20–30 pools every year within Victoria. The company offers the whole package, from design concepts to pool construction, as well as landscaping. Salt Pools builds immaculate pools and creates landscapes that meet each client's specific requests, and has the expertise to perfect every outdoor space it undertakes.
