

SALT POOLS

SLEEK AND SOPHISTICATED

MAXIMUM STYLE

This stunning and sophisticated pool and spa has everything a homeowner could desire. It was originally designed by the client, and Salt Pools worked with them to ensure the end result was exactly what they wanted.

An acrylic window in between the swimming pool and spa, a Remco Australia Swim Jet system, and a motorised Sunbather pool cover, are just some of the incredible features included in this design. Along with an Astral Pools Internet Gateway, Paramount PV3 In-Floor Cleaning System, and in-house controls, this pool truly has all the bells and whistles.

Surrounding the pool is striking bluestone coping and paving, as well as on-trend glass pool fencing. This outdoor space fit in perfectly with the homeowners' lifestyles, as they wanted a pool for exercise and play, while ensuring there was still space available for grass and paving.

Salt Pools is owned and operated by Richard Workman. A licensed builder of swimming pools with the Victorian Building Authority (VBA) and a member of the Swimming Pool and Spa Association of Victoria (SPASA VIC), Richard has 25 years of industry experience.

The company specialises in concrete in-ground swimming pools, including plunge pools, infinity edge pools and spas. Salt Pools offers clients a complete package, from design concepts to pool construction and landscaping.

Salt Pools works predominately in Melbourne's eastern suburbs, but also travels throughout Victoria, building approximately 20 pools annually.
