

## SALT POOLS

# GOOD THINGS COME IN SMALL PACKAGES

### AN ELEGANT USE OF SPACE

Salt Pools specialises in concrete in-ground swimming pools of exceptional contemporary style, like the project featured here. With little available room, the pool makes good use of space, while still appearing spacious.

A clever example of what can be done when space is limited, the pool not only allows plenty of surrounding space for outdoor living, it also accommodates the homeowners' family and their love of entertaining. The homeowners also wanted a pool that fit in with the existing landscape, a challenge that Salt Pools easily rose to.

Due to the size of the site, Salt Pools worked closely with the homeowners to ensure their needs were met, while also guaranteeing the design would improve their lifestyle, not impinge on it.

Six-metres in length the pool is still large enough for the homeowners to swim laps, and certainly big enough for the kids to splash around in, making it a fun feature of the home that caters to all members of the family.

In addition to the pool, Salt Pools also completed the decking and coping surrounding the pool area and against the boundary. This feature was tied in to suit the existing decking, creating a seamless transition between old and new. The company also supplied the glass fence, which gives the area its contemporary finish without compromising the view of the pool from within the home.

Salt Pools was established by Richard Workman. An industry stalwart, Workman has more than 20 years of experience. As well as pool construction, the company can also complete landscape projects.

The team is made up of experienced design experts who can work through the entire construction process with you. From drafting the initial design to constructing the pool, the professional team will be with you every step of the way.

Whether you're after a plunge pool or a large-scale project, Salt Pools has proven it can complete pools of any size. Predominantly servicing Melbourne's eastern suburbs, Salt Pools can offer you a complete service.
